

# GSK Vaccines in Your Practice

We are dedicated to our customers having resources to support billing and coding for our vaccines.

We've created this resource that you and your staff can use for proper coding and reporting of GSK vaccines. For more information, visit [GSKVaccinesCodes.com](https://www.gsk.com/GSKVaccinesCodes.com) to:

- Access product codes for GSK pediatric, adolescent, and adult vaccines
- Find common diagnosis and administration codes
- Explore the claims process as it relates to GSK vaccines
- Get information about special coding circumstances
- Find additional resources for your practice

For specific questions related to any GSK vaccine products, please refer to the full Prescribing Information for the product.

GSKVaccinesCodes.com is not intended to serve as comprehensive training for medical billing and coding, nor is it intended to direct the use of specific vaccine products for individual patients. Only a trained medical professional using professional judgment and clinical skills can make the informed decision about when to administer a specific vaccine to a particular patient, and coding will depend upon such use.

## Codes for GSK Vaccines

Codes are believed to be accurate as of the date of publication. Users should independently verify accuracy.

ICD-10-CM code Z23, Encounter for Immunization, is reported for all vaccines given within an encounter. Additional ICD-10-CM coding may be needed.

BRAND	CPT CODE	DOSE	NDCs*	CVX CODE	MVX CODE	
 <b>AREXVY</b> (RESPIRATORY SYNCYTIAL VIRUS VACCINE, ADJUVANTED)	90679	0.5 mL	Outer Carton of 10 Doses: 10 vials of adjuvant suspension (liquid): 10 vials of lyophilized antigen component (powder):	NDC 58160-848-11 NDC 58160-744-03 NDC 58160-723-03	303	SKB
 <b>BEXSERO</b> Meningococcal Group B Vaccine	90620	0.5 mL	Syringe in Package of 10 Syringe: Outer Carton:	NDC 58160-976-02 NDC 58160-976-20	163	SKB
 <b>BOOSTRIX</b> Tetanus Toxoid, Reduced Diphtheria Toxoid and Acellular Pertussis Vaccine, Adsorbed	90715	0.5 mL	Vial in Package of 10 Vial: Outer Carton: Syringe in Package of 10 Syringe: Outer Carton:	NDC 58160-842-01 NDC 58160-842-11 NDC 58160-842-43 NDC 58160-842-52	115	SKB
 <b>Engerix-B®</b> Hepatitis B Vaccine (Recombinant) Pediatric/adolescent dose	90744	10 mcg/ 0.5 mL	Syringe in Package of 10 Syringe: Outer Carton:	NDC 58160-820-43 NDC 58160-820-52	08	SKB
 <b>Engerix-B®</b> Hepatitis B Vaccine (Recombinant) Adult dose	90746	20 mcg/mL	Vial in Package of 10 Vial: Outer Carton: Syringe in Package of 10 Syringe: Outer Carton:	NDC 58160-821-01 NDC 58160-821-11 NDC 58160-821-43 NDC 58160-821-52	43	SKB
 <b>Engerix-B®</b> Hepatitis B Vaccine (Recombinant) Adult dose (Dialysis or immuno- suppressed patient)	90747	20 mcg/mL	Vial in Package of 10 Vial: Outer Carton: Syringe in Package of 10 Syringe: Outer Carton:	NDC 58160-821-01 NDC 58160-821-11 NDC 58160-821-43 NDC 58160-821-52	43	SKB

\*Note that some payers require an 11-digit NDC, which involves adding a "0" immediately after the first hyphen in each GSK NDC. For example, when reporting NDC 58160-976-20 to TRICARE, it becomes NDC 58160-0976-20.
